

## Instruction

### Guidance and Counseling Program

The School District provides a guidance program that is available to every student. Building Principals will direct the District's guidance program.

The staff shall notify the guidance counselor if they feel a student needs help in order to provide early identification of intellectual, emotional, social, or physical needs, diagnosis of any learning disabilities, and development of educational potential. The District's counselors shall offer counseling to those students who require additional assistance.

The guidance program will assist students to identify career options consistent with their abilities, interests, and personal values. Students shall be encouraged to seek the help of counselors to develop specific curriculum goals which conform to the student's career objectives.

High school juniors and seniors will have the opportunity to receive career-oriented information. Representatives from colleges and universities, occupational training institutions and career-oriented recruiters, including the military, may be given access to the school campus in order to provide students and parent(s)/guardian(s) with information.
